### SECTION 4: First Aid Measures

#### 4.1. Description of First-aid Measures

First-Aid Measures General

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-Aid Measures After Inhalation

If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

First-Aid Measures After Skin Contact

Immediately remove contaminated clothing. Obtain medical attention if irritation/rash develops or persists. Immediately drench affected area with water for at least 15 minutes.

# R-1008-2

| <b>4.2. Most Important Symptoms and Effects Both Acute and Delayed</b> |   |
| Symptoms/Effects   | Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. Skin sensitisation. May be fatal if swallowed and enters airways. May cause damage to organs through prolonged or repeated exposure. |
| Symptoms/Effects After Inhalation                                      | Irritation of the respiratory tract and the other mucous membranes.   |
| Symptoms/Effects After Skin Contact                                    | Redness, pain, swelling, itching, burning, dryness, and dermatitis. May cause an allergic skin reaction.  |
| Symptoms/Effects After Eye Contact                                     | Contact causes severe irritation with redness and swelling of the conjunctiva.  |
| Symptoms/Effects After Ingestion                                       | Aspiration into the lungs can occur during ingestion or vomiting and may cause lung injury.   |
| Chronic Symptoms   | May cause damage to organs through prolonged or repeated exposure.  |

### 4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If medical advice is needed, have product container or label at hand. If exposed or concerned, get medical advice and attention.

## SECTION 5: Firefighting Measures

### 5.1. Extinguishing Media

|                                |   |
|--------------------------------|---|
| Suitable Extinguishing Media   | Water spray, fog, carbon dioxide, dry chemical powder, alcohol foam, polymer foam.  |
| Unsuitable Extinguishing Media | Do not use a heavy water stream. A heavy water stream may spread burning liquid. Application of water stream to hot product may cause frothing and increase fire intensity. |

### 5.2. Special Hazards Arising From the Substance or Mixture

|  |   |
|--|---|
| Fire Hazard                                      | Flammable liquid and vapour. Vapours are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapours. |
| Explosion Hazard                                 | May form flammable/explosive vapour-air mixture.  |
| Reactivity                                       | Reacts violently with strong oxidisers. Increased risk of fire or explosion.  |
| Hazardous Decomposition Products in Case of Fire | Silicon oxides. Carbon oxides (CO, CO <sub>2</sub> ). Hydrocarbons. Smoke. Oxides of tin.   |

### 5.3. Advice for Firefighters

|                                |  |
|--------------------------------|--|
| Precautionary Measures Fire    | Exercise caution when fighting any chemical fire.  |
| Firefighting Instructions      | Do not breathe fumes from fires or vapours from decomposition. Use water spray or fog for cooling exposed containers. Avoid release to the environment. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. |
| Protection During Firefighting | Do not enter fire area without proper protective equipment, including respiratory protection.  |

## Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

### SECTION 6: Accidental Release Measures

#### 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General Measures

Avoid breathing (vapor, mist, spray). Avoid all contact with skin, eyes, or clothing. Use special care to avoid static electric charges. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking.

##### 6.1.1. For Non-Emergency Personnel

Protective Equipment

Use appropriate personal protective equipment (PPE).

Emergency Procedures

Evacuate unnecessary personnel. Stop leak if safe to do so.

##### 6.1.2. For Emergency Responders

Protective Equipment

Equip cleanup crew with proper protection.

Emergency Procedures

Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. Eliminate ignition sources.

#### 6.2. Environmental Precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

#### 6.3. Methods and Materials for Containment and Cleaning Up

For Containment

Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. As an immediate precautionary measure, isolate spill or leak area in all directions. Clean up spills immediately and dispose of waste safely. Absorb and/or contain spill with inert material. Do not take up in combustible material such as: saw dust or cellulosic material. Transfer spilled material to a suitable container for disposal. Use only non-sparking tools. Contact competent authorities after a spill.

Methods For Cleaning Up

#### 6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

### SECTION 7: Handling And Storage

#### 7.1. Precautions for Safe Handling

Additional Hazards When Processed

Handle empty containers with care because residual vapours are flammable. When heated, material emits irritating fumes. Any proposed use of this product in elevated-temperature processes should be thoroughly evaluated to assure that safe operating conditions are established and maintained.

Precautions for Safe Handling

Avoid breathing vapors, mist, spray. Avoid contact with eyes, skin and clothing. Take precautionary measures against static discharge. Use only non-sparking tools. Keep away from heat, sparks, open flames, hot surfaces. – No smoking. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Hygiene Measures

Handle in accordance with good industrial hygiene and safety procedures.

### 8.2. Exposure Controls

Appropriate Engineering Controls

Ensure all national/local regulations are observed. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Take precautionary measures against static discharges. Use explosion-proof equipment. Proper grounding procedures to avoid static electricity should be followed. Gas detectors should be used when flammable gases/vapours may be released.

Personal Protective Equipment

Protective clothing. Protective goggles. Gloves. Insufficient ventilation: wear respiratory protection.

Materials for Protective Clothing

Wear fire/flame resistant/retardant clothing. Chemically resistant materials and fabrics.

Hand Protection

Wear protective gloves.

Eye Protection

Chemical safety goggles.

Skin and Body Protection

Wear suitable protective clothing.

Respiratory Protection

If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other Information

When using, do not eat, drink or smoke.
